PERSONAL BACKGROUND

I'm very curious and love to learn about everything. I always try to do my best and fulfill my responsibilities. Moreover, I want to use my skills to help others in my community those who need help. I've had to work harder than most people because I grew up in a poor family and underdeveloping community. This has made me stronge mindset and more determined. I never give up when things get tough. My dream is to make a difference in the lives of the people around me.
